MAKES EASTER APPEAL FOR NEAR EAST RELIEF
An Easter appeal for the Near East relief has been sent out in this state and has been received in Norwich. It is hoped by the Norwich committee that a number of local people will feel called upon to respond to the appeal, possibly making their response on the monthly plan which is suggested.

State Chairman M. W. Jacobus makes his Easter appeal as follows: Hartford, Conn., March 29, 1920.
Dear Friend:

The most terrible and appalling suffering the world has known since Christ first journeyed and preached the word of God to mankind. From the first Easter morning, but the sand years ago, a sturdy, faithful people have steadfastly held aloft the torch of Christianity.

Today, as for the last five years, but in a most critical way, this torch which inhabits the lands made holy by Him, faces total extinction through the death by starvation of its children.
Armenia has borne the torch of Christianity for all the world. Today it remains for America either to save these guardians of the word of Christ or to let the torch of Christianity and the paganism of the Near East, and the far east to engulf the cradleland of Christianity and in time to blot out the civilization of Europe.

As you turn toward the promise of the springtime and the renewal of life, can you do it with a clean heart and a clear mind, but have been forced to a bit toward the salvation of one small child of Christ's flock?

Five dollars—the price of an Easter nosegay—means food for a whole month, thirty days, for one of these little ones. Can you refuse this? There are one among us who cannot at least do that much?

I enclose a pledge card. Sign and return to me. The money with it will be more effective now than six months from now. But every five dollars will mean a child saved for a month, whenever you can pay it. Christ gave His life for this joyous time of spring; will you give in His name?

Sincerely yours,
M. W. JACOBUS,
State Chairman.

THREE PLEASURE BEACH COTTAGES ARE BURNED
Three cottages at Piquette Beach, valued in all at \$10,000, were totally destroyed by fire about 1 o'clock Friday morning. None of them had been occupied since they were built. They were owned by Samuel Burlingham, William H. Latham of Willimantic, and Mrs. Mary E. Smith of New London.

The Burlingham family spends the winter in California and their cottage on the beach stands empty through the winter. The fire started in that cottage and was discovered between midnight and 1 o'clock by Joseph Douglas, who notified Constable Louis Rieger.

Efforts were made to extinguish the blaze but they were unavailing and the fire soon communicated to the Latham and Smith cottages, one on each side of the Burlingham cottage.
When it was evident that the fire could not be controlled a hurry call was sent for assistance to New London, but by the time a fire engine from there had reached the beach the three cottages were a total loss.

The cottages were located at what is known as the lower beach and directly from the water. It was bad that the wind was blowing off shore, in the direction of the sound, undoubtedly saved several other cottages from destruction.

The theory of defective electric light wiring was advanced as the cause of the fire but it is stated that this could not have been the cause because the wiring was disconnected at the close of the season last fall. The Murphy cottage, which formerly belonged to R. J. Jodoin of Baltic, added the three cottages that were destroyed. It was threatened and furniture was removed but the structure was saved and the furniture moved back.
